

# Common Human Resource Information Standards

## Person Casualty Status

---

Person Casualty Status is a reporting classification of a person who is designated a casualty to an organization.

### Permitted Values

- Missing
- Deceased
- Duty Status - whereabouts unknown (DUSTWUN)
- Excused Absence - whereabouts unknown (EAWUN)
- Not Seriously Ill or Injured (NSI)
- Seriously Ill or Injured (SI)
- Very Seriously Ill or Injured (VSI)
- Returned to Military Control

### Structural Business Rules

Casualty Type must have an associated Casualty Status and Casualty Category.

Casualty Type, Casualty Status, and Casualty Category must have an associated Casualty Date.

Casualty Status must be determined after the Casualty Type is established.
